REMARKS

Claims 1 and 6 have been amended to clarify the invention, and to better define the invention over the prior art. Claims 1-6 also have been amended to eliminate "means" language and operation of 35 USC 112(6). No new matter has been added by these changes.

The rejection of claims 1-8 under 35 USC § 102(e) as being anticipated by Kawashima et al (US Patent 6,592,228) is in error because Kawashima et al. does not teach every element of the independent claim 1. Independent claims 1 and 6, as amended, require "correcting a distorted quadrilateral image, without repositioning said projector."

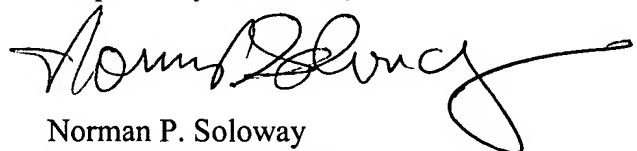

Kawashima et al. teaches a method of adjusting the projected image which requires repeated repositioning of the projector during the installation process. FIG. 1 and 8; column 12, lines 34-36. Thus, Kawashima et al. does not anticipate nor render obvious independent claim 1 or independent claim 6, or any of the claims dependent thereon.

Drawing FIG. 3 has been amended as required by the Examiner.

Having dealt with all the objections raised by the Examiner, the Application is believed to be in order for allowance. Early and favorable action are respectfully requested.

In the event there are any fee deficiencies or additional fees are payable, please charge them (or credit any overpayment) to our Deposit Account Number 08-1391.

Respectfully submitted,

Norman P. Soloway
Attorney for Applicant
